Medical Advisory Board

Dr. Glenn Charles, D.O.,
Hair Transplant Surgeon

Dr. Glenn Charles is a Diplomat of the American Board of Hair Restoration Surgery and a member of the Hair Restoration Surgery Examination Committee. Today, Dr. Charles has developed Charles Medical Group, where his practice has become one of less than 50 hair transplant specialists in North America recommended by The American Hair Loss Association.

"I have recently discovered Viviscal Professional, a drug-free food supplement that helps support natural healthy hair growth in cases of reversible thinning. I have seen slowing down of hair loss and improvement of hair characteristics, including hair texture and diameter."

Vetta Thompson,
Internationally Board Certified Trichologist

Vetta Thompson has been recognized worldwide for over 20 years for her highly valued studies of natural remedies for the professional treatment of hair and scalp disorders. As the founder and owner of the National Center of Trichology in Jacksonville, Florida, a clinic specializing in hair and scalp disorders, Ms. Thompson has earned global respect as one of the top experts in the industry.

"I recommend Viviscal Professional to my clients suffering from reversible hair loss and thinning – both male and female."

Dr. Alan Bauman, MD,
Hair Transplant Surgeon

Dr. Bauman is the Founder and Medical Director of Bauman Medical Group. He is one of only a handful of surgeons internationally board-certified in the specialty of Hair Restoration. Dr. Bauman received his Doctor of Medicine degree with Cor Et Manus award from New York Medical College.

"Over the past ten years I've heard countless success stories from my patients who use Viviscal. For many patients (male and female) seeking a simple improvement of their hair quality and texture, Viviscal was a drug-free solution that met their needs."

Viviscal® Professional

The Professional Answer to Thinning Hair

FAQ's

Q Are Viviscal® Professional supplements suitable for men and women?

A Yes. Viviscal® Professional can be used by men and women.

Q Are there any negative side effects associated with Viviscal® Professional?

A No. Unlike other products for thinning hair, Viviscal® Professional is 100% natural and chemical-free.

Q Do Viviscal® Professional supplements contain drugs such as Minoxidil or Finasteride?

A Viviscal® Professional does not contain any drugs. It is 100% all natural.

Q Can anyone take Viviscal® Professional supplements?

A Viviscal® Professional is not recommended for anyone allergic to fish or seafood. If pregnant or breastfeeding, Viviscal® Professional should not be taken without consulting a doctor.

Q Will Viviscal® Professional supplements interfere with medication?

A No, however it is always advisable to check with a doctor before starting any supplement program.

NATURAL HEALTHCARE

Beat the problem of Thinning Hair

What is Viviscal Professional?

The specially formulated 100% natural food supplements are specifically designed to nourish thinning hair caused by breakage and shedding of follicles, while simultaneously promoting the growth of existing hair. The condition is often contributed to *telogen effluvium* (temporary hair loss), which can be caused by everyday stress, hormonal changes, poor diet, heredity, frequent hair styling, and overall health.

100% natural Viviscal® Professional Supplements are scientifically formulated to nourish thinning hair and promote existing hair growth*

The specially formulated 100% natural food supplements are specifically targeted at nourishing thinning hair caused by breakage and shedding of follicles, while simultaneously promoting the growth of existing hair. The key ingredient to *Viviscal® Professional's* success is the exclusive **AminoMar C™ marine complex**. This rich complex is packed with marine extracts and blended with organic, soluble silica. The complete formula is fortified with Vitamin C to complete the ideal combination for successful hair nourishment.

100% Natural Ingredients

The Viviscal® Professional Hair Nourishment System has been developed with the finest ingredients nature has to offer.

Active Ingredients of Viviscal® Professional Supplements (60 Tablets) include:

- **AminoMar C™ Marine Complex** – Provides the essential nutrients needed to nourish thinning hair and promote existing hair growth. The ingredients in Viviscal® Professional are completely natural AND completely safe
- **Horsetail Extract** – An organic form of silica from a plant extract, used to strengthen and revitalize lifeless hair naturally.
- **Acerola Cherry Extract** – One of the richest natural sources of Vitamin C, with highly effective antioxidant properties.

How Do Viviscal® Professional Supplements Work?

4 Stages to Healthier Hair

Viviscal® Professional supplements work in 4 stages over a 6 month period. A difference is often noticed in 2 to 4 months, in line with each individual patient's natural hair cycle.

Stage 1	Hair follicles are nourished through consistent intake of nutrients and marine protein in each tablet
Stage 2	Thin and wispy hair is strengthened through increased nourishment
Stage 3	Breakage and thinning continues to decline, encouraging existing hair growth
Stage 4	These hairs become stronger, healthier, and more vibrant as nutrients are thoroughly replenished

How Should Viviscal® Professional Supplements be Taken?

For clients experiencing thinning hair, the recommended dosage is 2 tablets daily for a minimum of 6 months or until the desired results have been achieved. The first tablet should be taken in the morning and the second tablet in the evening. Each tablet should be taken with water and after food. Thereafter, 1-2 tablets daily may be used as required for maintenance. *Viviscal® Professional* tablets are gluten-free and easy to swallow.

Viviscal® Professional Clinical Trials

***Viviscal® Professional's* years of scientific evaluation have been published in numerous leading International journals. For a full version of any of the 5 published studies, please contact your Viviscal® Professional representative.**

PUBLICATION

Journal of International Medical Research. 1992. 20:p.445-453. Lassus & E. Eskelinen. A Comparative Study of a New Food Supplement, *Viviscal® Professional*, Containing Marine Derived Polysaccharide, with Fish Extract for the Treatment of Hereditary Androgenic Alopecia in Young Males.

SUMMARY

A controlled, randomized, double-blind, parallel-group study compared *Viviscal® Professional* (a new food supplement incorporating special marine extracts and a silica compound) with a fish extract in the treatment of young males with hereditary androgenic alopecia. In the *Viviscal® Professional* group, 95% of subjects showed both clinical and histological improvement, whereas none treated with fish extract showed any difference after 6 months' treatment ($P < 0.0001$). In conclusion, *Viviscal® Professional* appears to be a highly active treatment for androgenic alopecia.

PUBLICATION

Revista Brasileira de Medicina. March 1997. Vol 53; No. 3: p. 1-5. Jose Marcos Pereira. *Treatment of Androgenic Alopecia with a marine-based (Viviscal®) extract of proteins and polysaccharides.*

SUMMARY

Results suggest use of marine-based polysaccharides is beneficial for treatment of Androgenetic alopecia in order to stabilize hair loss. 75.3% of 178 patients, that completed the study, observed a significant decrease in hair loss & 14.6% of patients showed partial regrowth.
